INTRODUCTION

The following Index has been prepared by The Canadian Bankers' Association as a guide to the 1980 Bank Act. In issuing this Index, The Canadian Bankers' Association wishes to acknowledge the valuable assistance it has received from librarian-consultant Susan Klement who spent many hours in drafting and revising the text.

The 1980 Bank Act was enacted as Part I of the Banks and Banking Law Revision Act, 1980 in November, 1980. The Bank Act was proclaimed into force the following month. Due to the extreme length of the Act, the task of finding answers to questions based on the legislation can be very time-consuming. It is hoped that this Index will render the 1980 Bank Act a more manageable document for personnel in the banking industry.

The Index does not include references to the regulations made under the 1980 Bank Act. A listing of these regulations can be obtained by consulting the Consolidated Index of Statutory Instruments. The Consolidated Index is issued quarterly as part of the Canada Gazette Part II, published by the Queen's Printer for Canada.

The Association welcomes any comments readers may have concerning the Index.
